

BYL LEVEL 3

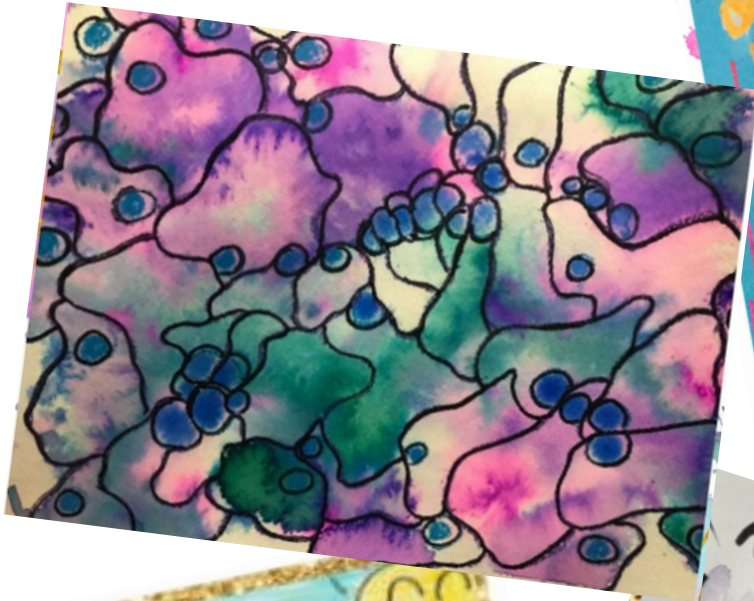

At the Glitter Bomb, we love to link our art to other studies! You will find so many of our projects tie in perfectly with what you are studying in BYL3. See below for some examples and check out our bundle lists to see what is coming and what is already available in our member portal. Each bundle includes 10 projects, 2 extension, a chapter book recommendation with discussion questions, and silly drawing prompts. Hundreds of art projects are in an easy to navigate portal, including hundreds of videos for kids, and a Facebook Live class every month.
